Date: 28.06.2017 to 01.07.2017

Time: 9.30 a.m. to 1.30 p.m.

Venue: Venkateswara Dikshithar A/c Seminar Hall
Shrimati Indira Gandhi College Campus

Skill Development Programme

A skill development programme was held for all the I PGs from 28.06.2017 to 01.07.2017. This was organised by the faculty of the Department of English, MSH, Placement cell and NAAC Co-ordinator in the MCA seminar hall (Venkateswara Dikshithar A/C Seminar hall). The Department of English first touched upon the basics of Grammar, then they tested the students ability through puzzles, riddles and certain word games. The Department of social work trained the students on discipline, personality development and how to maintain a clear mind. The placement cell spoke on the requisites essential while preparing and attending an interview. The NAAC Co-ordinator gave an idea on the various e-resources available in the college for education and research.

One day Workshop on "Laboratory Hygiene and Safety"

Date : 08.07.2017

The Department of Chemistry organized a One day workshop on "Laboratory Hygiene and safety" on 08.07.17 in the Chemistry lab, College Campus. Dr.P.Lakshmi Prabha, Head, Department of Chemistry conveyed the rules and regulations followed in the lab through PowerPoint and video presentation taken. She also instructed the students about storage and handling of chemical apparatus, waste disposal, general precautions for avoiding accidents, first aid techniques and toxic chemicals were explained. Dr.N.Manimaran and Ms.B.Sasi, Assistant Professors were mentioned about safety method of handling, toxic chemicals. More than 150 students got benefitted in theory as well as Practical Knowledge in volumetric analysis.

One Day Demonstration on Cushion Making by

Our Alumnae

Date: 9.07.2017

The Department of Fashion Technology & Costume Designing and organized One day Demonstration on Cushion making, 120 students of Fashion Technology attended the workshop and were benefited. In this workshop Ms.M.I Jafeen fathima, Ms.G.Harini & Ms.Sowndharya Alumnae of our Department has been a resources persons. They demonstrate about the designing of different styles of cushion in various shapes using different pattern layout. By this workshop the students gain knowledge in making many types of cushion with various effects in innovative way. It also inspired the students to further their efforts in creating new design.

Production of Organic Fertilizer

Resource Persons: Ms.P.Anitha (Head) and Ms.S.Gomathi, (Asst. Professor)
Department of Biochemistry.

Date: 15/07/2017

Time: 10.30 a.m

Venue: K Block Garden

Beneficiaries: II and III year Students of the Department of Biochemistry.

Report on

“One day workshop on production of Biofertilizer”

15.07.2017

The Department of Biochemistry organized a workshop on “**Production of Biofertilizer**” at K block Garden. The Programme was started at 10.30.A.M. Around 107 students from II and III BSc Biochemistry participated and benefited from this workshop.

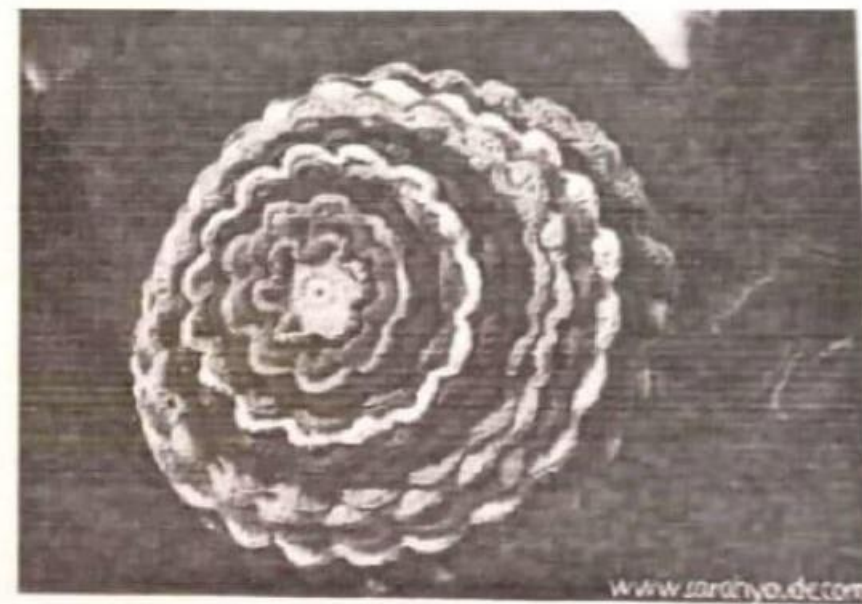

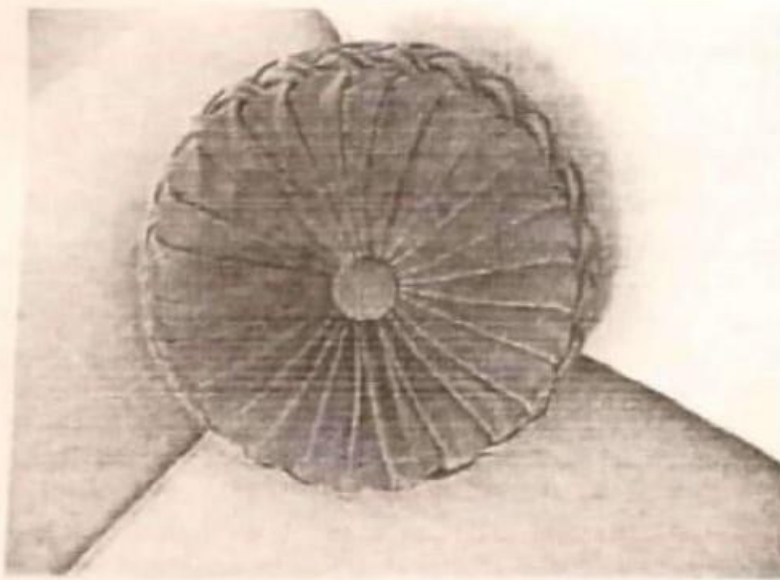

Ms P.Anitha (Head), and Ms.S.Gomathi, Asst. Professor, Department of Biochemistry presented on the production of Panchagavya to the students, followed by live demonstration on its production. They also explained the **ingredients** viz. cow dung, cow urine, milk, curd, jaggery, ghee, banana, Tender coconut and water which were used for the production of Panchagavya. The uses of panchakavya are promoting growth, providing immunity to plants, Induces dense flowering with more female flowers, continues to fruit regularly, increases the yield and Shelf life. Promotes growth hormone. Flavour and aroma are extraordinary for flowers and vegetables. Distillation of cow urine was also demonstrated and its benefits were detailed.

One Day Workshop on “Cushion Making”**

Date : **29.07.2017**

The Department of Fashion Technology & Costume Designing and Entrepreneurship Development Cell (EDC) Jointly organized a one day workshop on “Cushion Making” for all UG and PG students of various disciplines on 29.07.2017 at R.V Auditorium. Around 288 students participated in this workshop. The cushion is a very ancient article of furniture, it is also referred to as a bolster. It is a soft furry bag of some ornamental material, stuffed with wool, hair, feathers, non-woven or even a paper torn into fragments. The cushion is used for decorative purpose and for sitting or kneeling upon or to soften the hardness or angularity of a chair. Decorative cushion often have a patterned cover material, and are used as a decoration for home and furniture. The Participants were taught to stitch cushion by using Canadian smocking technique and Canadian smocking heart pattern in various shapes like circle, square and rectangle etc. The cushion making workshop paved the way to bring out the students talent and to become an Entrepreneur in future.

A report on International workshop on “Biochemical and Bioinformatics Techniques”

The Department of Biochemistry organized an International workshop on “Biochemical and Bioinformatics Techniques” at Vidya Seva Ratnam K. Santhanam Auditorium (MBA Block) on 05.09.2017.

The programme started with lighting of Kuthuvilaku by Dr.A.Antony Samy, Associate Professor, Department of Medical & Health Science, Wollega University, Ethiopia, Dr. A. Vijayanand, Associate Professor & Head, Department of Human Genetics and Molecular Biology, Bharathiyar University, Coimbatore Dr. M. Rema, Vice Principal and Ms.P.Anitha, Head, Dept. of Biochemistry, Shrimati Indira Gandhi College.

Dr.A.Antony Samy was the resource person for the Technical session I and he delivered a lecture on the topic “Tools of Bioinformatics”. He stated that there is an emerging need to learn the tools which was developed for the analysis and integration of complex omics (genomics, transcriptomics, proteomics, and metabolomics) datasets. He explained that the tools are the software programs for saving, retrieving and analysis of Biological data and extracting the information from them which are very user friendly. The tools are available over the internet and can be used by scientific research community which includes the following categories: Homology and Similarity Tools, Protein Function Analysis, Structural Analysis.

Dr. A. Vijayanand, was the resource person for Technical session II and delivered a lecture on “Identification of phytoconstituents using Biochemical Techniques”. He enlightened the role of biochemical techniques on identifying phytoconstituents in plants. He elaborated about the medicines used traditionally by our ancestors has to be recognized, validated by identifying the bioconstituents in the plant by various analytical techniques.

In the technical session III Ms.A.Shanmugapriya and MS.V.Bharathi, Assistant professors, Department of biochemistry, Shrimati Indira Gandhi College, Trichy, gave hands on training at MCA laboratory on basic similarity search tools (BLAST and Clustal W) and Protein molecular visualization tool (PYMOL) to the participants. A total of 365 participants which comprised of students, scholars and faculty members from various institutions, participated in this workshop.

Valedictory function was started at 4.30 p.m. Dr.A.Antony Samy, delivered the valedictory speech. Certificates were distributed by Shri. S. Kunjithapatham, Secretary, Shrimati Indira Gandhi College. Ms. P. Anitha welcomed the gathering and Dr. T. Karpagam proposed the vote of thanks.

Production of Vermiwash

Resource Persons: Ms.P.Anitha (Head) and Ms.S.Gomathi, (Asst. Professor)
Department of Biochemistry.

Date: 21/03/2018

Time: 2.00 p.m

Venue: Garden Near Canteen

Beneficiaries: I BSc Biochemistry.

Report on “Production of Vermiwash”

21.03.18

The Department of Biochemistry organized a workshop on “**Production of Vermiwash**” in the Garden near canteen. The Programme started at 2.00.p.m. Around 65 students from I BSc Biochemistry participated and benefited from this workshop.

Ms P.Anitha (Head), and Ms.S.Gomathi, Asst. Professor, Department of Biochemistry demonstrated on the production of Vermiwash. Vermiwash contains excretory products and mucus secretions of earthworms, growth hormones and micronutrients from soil. Vermiwash has high quantities of Nitrogen, Phosphate, Potassium, Sodium, Calcium, Copper, Magnesium, Manganese and Zinc. Vermiwash is diluted with water (10%) before spraying. This has been found to be very effective on several plants. Vermiwash may be mixed with cow's urine and diluted and sprayed on plants to function as an effecting foliar spray and pesticide helping plant growth and preventing infections.
