HOD

We [#sigtrichy](#) were proud to host a webinar on the "Excellence Series" by Dr. Shri. T.K Sundaramurthy, Mission Director (Retd. ISRO). He spoke on the topic - "Emerging Scenario of Indian Science Program". The session started with a quote by Vikram Sarabhai "There are some who question the relevance of space activities in a developing nation. To us, there is no ambiguity of purpose". He questioned "What is a satellite?" and answered it with its Different types used in various sectors ". He described the satellite usage in Telemedicine, Education, Space, Research and rescue operation. Furthermore, he discussed few examples of remote sensing satellite's earth application. He gave few details on a space mission and planetary mission carried out in ISRO to date.

He discussed the success of Chandrayan -2 and "Why It Came Under the Necessity Category ".He spoke about the Huge achievement of the Mangalyaan Mission and "How India was able to do it successfully in the first attempt using their launch vehicle?". He shared with students about the future mission to Venus, the study of exoplanets, astronauts' plans, X-Ray, FM development, etc. He spoke about Satellite Navigation and how it works? He concluded the session by explaining the future of the spaceship program to students. Students from the Department of Physics, Shrimati Indira Gandhi College raised queries through Q&A session. The Speaker cleared all the doubts patiently. All the students who participated in the webinar enjoyed and gained knowledge.
