## Student Centric Methods

### DEPARTMENT OF MANAGEMENT STUDIES

Student Centric Methods, Such as Experiential Learning, Participative Learning and Problem-Solving Methodologies Are Used for Enhancing Learning Experiences.

Department of Management Studies believes in the adoption of student centric methods to enhance student involvement as a part of participative learning and problem-solving methodology. Role Plays, Team works, Debates, Seminar Quizzes and case studies Specifically Students centric Teaching Methods are reflected in project work, Industrial visit& guest lectures.

**Participation in competition at various levels:** For Real time exposure students are encouraged to participated at State, National and International Level competition.

**Industrial Visits:** Departments Plan and Organized the industrial visits for students to provide exposure to industrial work culture.

**Workshop:** A workshop may introduce a new idea, inspire participants to further explore it on their own, or may illustrate and promote actual process practice. It is a great way to teach hands-on skills as it gives learners an opportunity to try out new methods and fail in a safe environment.

### PARTICIPATIVE LEARNING

**Role play:** Teachers adopt role play method to supplement Teaching by way of participative learning.

#### Team work

Department of Management Studies organize student's activities to promote the spirit of Team work like budget discussion panel meet and peer meet to educate students. The session will also encourage students to develop their analytical and critical thinking skills as they will learn about the impact of the budget on different aspects of the economy.

**Debates:** Debates are followed in many of the subjects where students are required to come with different opinions, thought processes thus the learning process gets justified in the argue-mental way of learning.

# SHRIMATI INDIRA GANDHI COLLEGE

(Affiliated to Bharathidasan University)

Nationally Accredited at 'A' Grade (3<sup>rd</sup> Cycle) by NAAC | An ISO 9001 : 2015 Certified Institution  
Tiruchirappalli - 620 002

**Seminar:** Seminars are small group discussions organized and led by staff. The purpose of a seminar is to enable students to improve their knowledge and understanding of a topic by engaging with key issues - participation is therefore necessary and successful participation involves preparation.

**Poster Presentation:** Posters help to focus and motivate students to learn. It's an effective way to catch and hold the attention of students, as well as helps to maintain their interest in a particular area.

**Start-up Business Idea:** A business idea is the reason for setting up a firm. This idea doesn't need to be unique, but it must have the potential to capture part of its target market. A business idea makes everything regarding the enterprise. Everything includes the products/services provided, ways of marketing the products, etc. It drives everything about the company, from what products and services are offered to how these products are marketed.

## **PROBLEM SOLVING METHODOLOGIES**

**Case studies:** Case study method is adopted in teaching learning process to make the students have logical thinking and practical knowledge to develop problem solving ability.

**Analysis and Reasoning:** All questions in examination are based on analysis and reasoning.

**Discussion:** Discussions methods in many of the subjects as it makes the students to think wide and participate in coming up with the opinions & suggestions to check their current knowledge.

Discussions are held basically in soft skills, managerial communications, business adoptions etc.

## **PG & RESEARCH DEPARTMENT OF MATHEMATICS**

**Fun with Maths -2022:** Inter-Departmental Quiz Competition, "Fun with Maths -2022" by the UG & PG students of Mathematics on 2nd September 2022. This programme was conducted to gain knowledge on Mathematics and to improve the reasoning skills of the students.

**Mathmagic Week Celebration:** The students of mathematics celebrated Mathmagic Week from 1/8/2022 to 6/8/2022. The purpose of the celebration was for students to demonstrate their knowledge and amuse the other students with arithmetic mazes and riddles. More than 75 students eagerly took part in and benefited from this program.

**Freedom Fighters Week Celebration:** The students of mathematics celebrated Freedom Fighters Week from 8/8/2022 to 12/8/2022. The purpose of the celebration was to raise awareness of

the freedom fighters and honor their contributions to our nation's freedom. With great enthusiasm, over 75 students participated in and gained from this program.

## Department of Biochemistry

### Participative learning

Colloquium on “Prospects of Biochemistry” – 29.7.2022

Dr.B. Balamurali Krishnan, Assistant Professor, Department of Food Science and Biotechnology, Sejong University, South Korea pontificates the significance of biochemistry in the fields of Medicine, Diagnostics, Pharmaceuticals, Biotechnology, Veterinary, Agriculture and Dairy Sciences. He highlighted various key ideas to reach research professionals in India and around the world. He motivated the students to do masters and research in their respective field and also encouraged the students to publish papers and book chapters. Dr.N. Manoharan, Associate Professor, Department of Marine Science, Bharathidasan University, Tiruchirappalli focused on fundamental ideas and skills needed for the students to get the jobs in the field of Biochemistry. They pointed out an increasing demand for biochemists in biochemical genetic research laboratories all over the world. He also listed out the various central research institutes in India for research. At the end of the session, the resource persons answered the question posed by the students.

Students' Buzz on “Support Breast Feeding For a Healthier Planet” 05.08.2022: On the eve of Breastfeeding Week, Department of Biochemistry organised Students' Buzz on “Support Breast Feeding For a Healthier Planet”. The programme started with the presentation by Nadhiya of II B.Sc Biochemistry. She gave a brief introduction about the importance of Breastfeeding, methods of consumption and reason for low milk supply. S. Ilakkaiya of III B.Sc Biochemistry elaborated the significant role played by breastfeeding in mother's and baby's health. She also pointed out the endless nutritional benefits of breast milk one by one. Finally, Saradhasri of II M.Sc Biochemistry explained the immunological role of breast milk in children's health.

Awareness Programme on “Muscular Dystrophy: The Department of Biochemistry organised an awareness programme on “Muscular Dystrophy” on 10.02.2023 by Dr. Joel Selwyn M.D.

# SHRIMATI INDIRA GANDHI COLLEGE

(Affiliated to Bharathidasan University)

(General Medicine), Executive Member, Danny & Friends, Trichy. The Speaker's presentation mainly focused on types, causes, symptoms and treatment of Muscular dystrophy. He clearly explained that Muscular dystrophy is a spectrum of disease that causes progressive weakness and loss of muscle mass. He pontificated the signs and symptoms which typically appear in early childhood, might include frequent falls, trouble running and jumping, waddling gait and walking on the toes. He also elucidated that it can be diagnosed by Electromyography, elevated level of creatine phosphokinase enzyme and muscle biopsy. He clarified that this can be prevented by avoiding intimate relation marriage since it is mainly caused by mutations in genes.

## **Experiential Learning**

The Department of Biochemistry organised an "International Conference on "Recent Advancements in Therapeutics"- ICRAAT-2022 by Dr.S.Ramachandran, Assistant Professor, Cornea Research Chair, Department of Optometry, King Saud University, Kingdom of Saudi Arabia and Dr.V.Ravikumar, Associate Professor and Head, Department of Biochemistry, Bharathidasan University, Tiruchirappalli, on 17.08.2022. Dr.S.Ramachandran. delivered a lecture on the topic "Therapeutic Efficacy of Nanoparticles". He emphasised the essential need for the isolation and characterization of gold nanoparticles from Kaba Sura Kudineer and concluded that there is an emerging demand for easy-to-use disease diagnosis and monitoring devices. Dr. V. Ravikumar, Associate Professor and Head, Department of Biochemistry, Bharathidasan University, Tiruchirappalli, delivered a talk on "Epigenetic Therapeutics in Cancer". He explained that the incidence of cancer is alarming in developed countries. He highlighted that epigenetic mechanisms are essential for the normal development and maintenance of tissue-specific gene expression patterns in mammals

One day Workshop on "Cytochemical Staining Techniques": The Department of Biochemistry organised a One-day workshop on "Cytochemical Staining Techniques" at PG instrumentation laboratory on 15.09.2022 by Dr. S.R. Senthil Kumar, Associate Professor, PG & Research Department of Botany, St. Joseph's College, Trichy. The Speaker's presentation mainly focused on localising the chemical components of the cell on thin histological sections by using several dyes. He clearly demonstrated the cytochemical techniques to identify diagnostically useful

Tiruchirappalli - 620 002

substances in the cells, usually by the development of colour reactions. He pontificated the significance of different patterns in staining techniques to identify DNA, RNA, Polysaccharides and proteins in plant tissues. He also elucidated the precept of Toluidine blue O method, Methyl Green-Pyronin reaction and Coomassie Brilliant Blue R method.

“Exposition of Vermicomposting”-28.11.2022: The Department of Biochemistry and Microbiology, Conducted a Workshop on “Exposition of Vermicomposting” by Dr.R. Senthil Kumar, Proprietor, Sri Amman BioCare & SAB Research Academy, Thanjavur on 28.11.2022. The Speaker’s presentation mainly focused on the qualities of a good Entrepreneur. He clearly demonstrated the significance of Vermicomposting and Vermiwash which is rich in humus and low production cost. He pontificated the different methods of producing Bio fertilizer. He also elucidated several important aspects on the relevance of Vermicompost in present scenario, role of earthworms in bio transformation of organic waste, process of Earthworms inoculation and factors influencing decomposition process, maintenance during vermicomposting and packaging. The said training programme imparted theory as well as practical exposure on Vermicomposting and management of organic wastes in agriculture for productivity improvement and livelihood security.

Industrial Visit to “Horticultural Research Station”, “Central Potato Research Institute” & “Pasteur Institute of India”, - 2.3.2023 & 3.3.2023. The Department of Biochemistry organised a two-day Industrial visit to Ooty on 02.03.23 & 03.03.23. 46 UG and PG Biochemistry students and four staff members visited Central Potato Research Station, Ooty (CPRI) on 02.03.2023. Dr. Priyank Hanuman Mhatre, Scientist & Head, ICAR-CPRI addressed the students. He explained about agro-techniques for potato cultivation, development of varieties possessing combined resistance and control measures for late soil and tuber-borne disease. The students and staff visited Karnataka Siri Horticulture Garden, Ooty. It’s being developed at Fern Hill in Ooty by the Horticulture department of Karnataka. Tea Garden are the main features of the garden. A maple tree avenue, a separate place for orchids and herbs are the other features. Ms. Chandra Charles, Assistant Research Officer, Quality Assurance, Pasteur Institute of India, Coonoor emphasised about the history and described the production of Anti Rabies vaccine and DPT vaccine. She also explained about the Rapid Fluorescent Focus Inhibition

Test. It is a serum neutralisation (Inhibition) test, which means it measures the ability of rabies specific antibodies to neutralise rabies virus and prevent virus from infecting cells.

Internship : Biotechnology Techniques 08.07.2021 to 31.08.2021. 09 students from II M.Sc. Biochemistry (2019-2022 Batch) attended Hands on Internship programme in “Biotechnology Techniques” at Trichy Research Institute of Biotechnology Pvt.Ltd, Trichy on 08.07.2021 to 31.08. 2021.This training programme also motivates the students to help and develop scientific advancement in the field of life sciences. Through this relationship Students were able to expand their knowledge and understanding in the field of biotechnology. 09 students from IM.Sc. Biochemistry (2019-2022 Batch) attended Hands on Internship programme in “Antioxidant, antimicrobial and antiurolithiatic activity of Costus igneus (flower)” at Bio Techno Solutions Training and Research Institute, Trichy on 02.04. 2022 to 02.05.2022. This training programme also motivates the students to acquire preliminary phytochemical assay in the field of life sciences. Through this relationship Students were able to expand their knowledge and understanding in the field of research methodology. 05 students from IM.Sc. Biochemistry (2019-2022 Batch) attended Hands on Internship programme in “Auto analyser instruments test and kits, Enzyme analysis (Fully Automated)” at Frontline hospital Trichy on 14.05. 2022 to 21.05.2022. This training programme also motivates the students to develop the provision of high-quality laboratory diagnostic tests, healthcare professionals for the patient welfare. Through this relationship Students were able to expand their knowledge and understanding in the field of medical sciences.

## DEPARTMENT OF BANK MANAGEMENT

### Experiential Learning

INDUSTRIAL VISIT: The Department of Bank Management arranged an Industrial visit to Kodai Chocolate Factory, Kodaikanal on 10-03-2023 & 11-03-2023.To have interactions with the industry to know industry specific workings on consumer satisfaction. The cognizant on Cash flow statement. Students learned the procedures of making chocolates and selling the products

Nationally Accredited at 'A' Grade (3<sup>rd</sup> Cycle) by NAAC | An ISO 9001 : 2015 Certified Institution  
Tiruchirappalli - 620 002

Participative Learning: Department of Bank Management Organized a HENRY FAYOL DAY Informative Program On “Think Out of The Box “On 29.07.2022. Department of Bank Management organized an Informative programme on "Share Day" on 10.08.2022. The Department of Bank Management organized an Interdepartmental Competition on FIT FAB FEB to celebrate occasion of World Thinking Day on 21.2. 2023

KNOWLEDGE ENRICHMENT: PG and Research Department of Commerce, Department of Business Administration and Department of Bank Management jointly conducted a Guest Lecture Program on “The Changing Landscape and Learning in accounting and Finance” on 12th September 2022. The Department of Bank Management organized a Seminar on “Awareness to Invest – Need of the hour” on 23.02.2023.

CURRICULUM ENRICHMENT: Department of Economics and Department of Bank Management jointly organized an One day workshop on "SPSS Package" on 13th September 2022

CREATIVE THINKING Exhibition: A Banking Exhibition on 01-04- 2022. The main theme is to provide Ban Concepts 360

## DEPARTMENT OF ECONOMICS

### EXPERIENTIAL LEARNING

The students are taken to industrial visit to Coorg Commodities and Coffee curers at Kushal nagar, Coorg. The students perceived the process of coffee curing and had a glimpse of the merchandise They also acquired the practical real-world perspective on the export channels.

### WORKSHOPS WORKSHOP CONDUCTED

One day workshop on "SPSS Package “was jointly organised by the Departments of Economics and the Department of Bank Management on 13.9.22 to educate the arts students and experience the hands-on training for the them. The students had a technical session on SPSS software and its usage on data transformation, graphing and the provision of the data analysis for descriptive and bivariate statistics and numeral outcome prediction for identifying groups and for direct marketing features. They also given data for the analysis of chi-square test and

to construct the output with ANOVA and T test. Dr.Royal Edsward Williams, Dr.J. Sathya, were the resource persons.

## WORKSHOP ATTENDED

The students of the department participated in the one day national conference on India G20presidency and global economic order: trade,investment and sustainable development on 6.3.23 at Jamal Mohammed College, Trichy.

## PARTICIPATIVE LEARNING

ASSIGNMENT: Assignments are the output of the student's ability and perception on conceptual learning. In the process of assignment preparation students create new ideas and develop writing and evaluating skills. The topics for the assignments are given to the students based on the course and the application part of it in economic relevance.

SEMINAR: Students are educated and motivated through listening to seminars of prominent personalities.IN recent a seminar was arranged by the department "Indian Economy Since Independence- Progress and Policy" by Dr. N. Prasanna, Associate Professor, Head I/C, Department of Economics, Director I/C, BECHRUSA 2.0, Coordinator, Placement and Training Cell, Bharathidasan University, Trichy, on 24.1.2023.He highlighted the precocious democracy of our country with sustained political openness and low levels of income with a graphical presentation. He threw light on the economic outcomes of India with the convergence of life expectancy and decline in poverty despite the divergence of income. The program was an eye-opener for the students

## DEBATES, PAPER PRESENTATION AND GROUP DISCUSSION

These are the various methods to develop the abilities, critical thinking skillsto empower in building self-confidence to the students. Some of the topics are Economic survey of India, Macro economic effects on income and inequality,India' new foreign trade policy.

BUDGET ANALYSIS2023: The Department of Management Studies,Commerce,Business Administration and Economics jointly conducted a programme on KEY INSIGHTS-UNION BUDGET 23-24 on 11.2.23. Auditor Girish expounded the Central Budget of India .

## DEPARTMENT OF FASHION TECHNOLOGY

The College is committed to ensure the holistic development of the students through a student-centric learning process and suitable curriculum design. The department adopt the following

# SHRIMATI INDIRA GANDHI COLLEGE

(Affiliated to Bharathidasan University)

Nationally Accredited at 'A' Grade (3<sup>rd</sup> Cycle) by NAAC | An ISO 9001 : 2015 Certified Institution

strategies to make learning more students–centric and ensure the holistic development of the students:

Experimental Learning: INDUSTRIALVISIT

Industry visit is a part of the education, during which students visit companies and get insight into the internal working environment of the company. It In addition to industrial exposure and knowledge, this will increase the internship and placement opportunities..

Guru Krishna Textiles ,Theni

Participative Learning: WORKSHOPS & COMPETITION

The Fashion Technology association functions as a forum for students to organize many workshops, Competition ,Trainers' Training programs and Demonstration which keep the students abreast of knowledge in developing entrepreneurship skills.

Workshop on Revamping of waste cloth

PG & RESEARCH DEPARTMENT OF MICROBIOLOGY:

Participative learning : “Microbes – The Wonders of Nature”- 22.07.2022. Dr. G. Muralidharan, Associate Professor, Department of Microbiology, School of Life Sciences, Bharathidasan University, Tiruchirappalli started the session with the basics of Microbiology. He highlighted algae, particularly Blue Green Algae or Cyanobacteria, its taxonomy, classification and morphology. He emphasized on Marine Cyanobacteria and it's applications such as biodiesel production, pharmaceutical potential and cosmetic production. In conclusion, the speaker gave an idea to explore the potentials of both fresh water and marine water Cyanobacteria available in the Indian subcontinent. Students of the PG and Research Department of Microbiology engaged in rapid Q & A and were highly benefited from the session. “Hepatitis care at your doorstep’ on 28.07.2022: PG and Research Department of Microbiology organized an Awareness programme on “Hepatitis care at your door step” on 28.07.2022 at 1.00 p.m. at UG Lab, Department of Microbiology organized by the students of II M.sc Microbiology. Students of Microbiology explained about the Hepatitis disease and their types, spreading and prevention methods through singing, enacting drama, contacting quiz and poster presentation. Through this programme the awareness was created among the students about the hepatitis virus and were benefited.

Nationally Accredited at 'A' Grade (3<sup>rd</sup> Cycle) by NAAC | An ISO 9001 : 2015 Certified Institution  
Tiruchirappalli - 620 002

“International Microorganism Day” - 19.08.2022: The Department of Microbiology celebrated the “International Microorganism Day” on 19.09.2022 at 1.00 p.m. at UG Microbiology lab. On this day the students displayed the models and posters related to the various types of microorganisms. Different types of microbial diseases and their mode of transmission has been well explained. In this celebration nearly 250 students from the department of Microbiology have actively participated and exhibited their talent.

Experiential Learning: The Department organised an International Conference on “Emerging Outlook and Recent Trends in Microbiology” on 26.08.2022. Dr. Nikhil Gandasi, Assistant Professor, Department of Molecular Reproduction, Development and Genetics, Indian Institute of Science, Bangalore was the resource person for the technical session I and he delivered a lecture on the topic “Microscopic tools to study Microbes in real time”. The Resource person expounded on microscopic tools particularly Scanning Electron Microscope and its role in the modern real time research. He concluded his speech stating that there is an emerging demand for portable, robust, inexpensive and easy-to-use microscopic tools to studying about the microbial nature.

Dr. Gurmeet Kaur, QC Microbiology Lead, Oxitec Limited, Oxfordshire, United Kingdom was the resource person for technical session II and delivered a talk on “Deciphering bacterial whispers cell to cell communication in Streptococcus mutans”. She explained that incidence of bacterial whispers and their mechanism for cell-to-cell communication.

Hands on training programme on "Computer aided drug designing"

The Department of Microbiology organized a hands-on training programme on “computer aided drug designing” on 27.02.2023. Dr. M.Rajalakshmi, Assistant Professor & Head in Biotechnology, Department of Zoology, Innovation Ambassador, Coordinator-KAPILA, Coordinator-DBT-BIF Centre, Holy Cross College (Autonomous), Tiruchirappalli was the Speaker.

The Hands-on training programme mainly focused on the drug designing through the computer tools. The resource person explained that the upcoming three decades the world will be going to be ruled by the field of Bioinformatics and having opening for the Experts in the field of Biology, Computer Science and Bioinformatics. She started her talk by introducing the starting point of present Bioinformatics field from the Mendelian concept. She explained the

conventional method of drug design and the difficulties involved it by means of time period taken and the animal models and human volunteers utilized to test the drugs designed. She elaborated the advantages of designing a drug through the computer aided methods by illustrating the protocols involved. After the lecture session, students have been trained through the hands-on training programme.

“Exposition of Vermicomposting”-28.11.2022: The Department of Biochemistry and Microbiology, Conducted a Workshop on “Exposition of Vermicomposting” by Dr.R. Senthil Kumar, Proprietor, Sri Amman BioCare & SAB Research Academy, Thanjavur on 28.11.2022. The Speaker’s presentation mainly focused on the qualities of a good Entrepreneur. He clearly demonstrated the significance of Vermicomposting and Vermiwash which is rich in humus and low production cost. He pontificated the different methods of producing Bio fertilizer. He also elucidated several important aspects on the relevance of Vermicompost in present scenario, role of earthworms in bio transformation of organic waste, process of Earthworms inoculation and factors influencing decomposition process, maintenance during vermicomposting and packaging. The said training programme imparted theory as well as practical exposure on vermicomposting and management of organic wastes in agriculture for productivity improvement and livelihood security.

Industrial visit to “Central Coir Research Institute” : Alapuzha, Kerala 05.04.2023 and 06.04.2023. The Department of Microbiology organized an Industrial visit from 05.04.2023 to 06.04.2023 to Central Coir Research institute in Alleppey, Kerala. A total of 110 students and 5 staff members visited the Coir institute. The students visited coir making machineries, dye lab and Microbiology lab. Dr.S.Radhakrishnan, Senior Scientific officer, Department of Microbiology, Central Coir Research Institute explained the role of microbes in softening the coir, coir pith, organic manure, biokemp, composting, coir agarbatti, large scale extraction of fiber using fiber extraction machine. He also discussed the microbiological view in coir industry. The Industrial visit was informative & added a lot of scientific knowledge & entrepreneur aspects to our students.

## DEPARTMENT OF SOCIAL WORK

To ensure a holistic development for social work students through a student centric learning process the department adopted several strategies to improvise their personal and academic

# SHRIMATI INDIRA GANDHI COLLEGE

(Affiliated to Bharathidasan University)

Nationally Accredited at 'A' Grade (3<sup>rd</sup> Cycle) by NAAC | An ISO 9001 : 2015 Certified Institution  
Tiruchirappalli - 620 002

skills. One of the goals for creating a student-centered environment is to make learning joyful, and engaging, coupled with purposeful challenges and helping them to thrive truly an incredible place in social work discipline.

Objective

## 2.3.1 Experiential Learning

STUDY TOUR : Study tour are organized to help and encourage students to understand the realities in society, both sociological and in social work aspects.

Department of Social Work Organized a Student Interaction Programme with Department of Sociology & and; Social Work Mother Teresa Women's University, Kodaikanal on 29.03.2023.

## ORIENTATION VIST

During the beginning years of the course, students are given opportunities to visit various social welfare agencies to observe and understand its functioning and role of social workers.

IMPACT: The students are taken to below settings/agencies regularly to develop observation skills which is one of the essential basic skills in social work practice.

- Medical and Psychiatric settings
- Old age homes
- Visits to NGOs /Social Welfare agencies
- Industrial visits

Visit to Trichy District Social Welfare Department on 20.10.2022. The Director of District Social Welfare Department gave orientation on various welfare measures and legal assistance available for weaker sections namely women, children and elderly by the Government.

Field visit to WE Trust, Kattur, Trichy on 18.10.2022 to create awareness among students on problems faced by women in the contemporary world and how to resolve in the real life situations

Field visit to St.antonny's oldage home ,Kattur, Trichy on 19.10.2022 to create awareness among students on problems faced by aged in the society and role of social worker in the old age home.

I MSW and II MSW Students Visited Athma The Mind Centre Psychiatric Hospital on 30/10/22. The Senior Psychiatric Counsellor gave orientation about orgin of the hospital and gained knowledge about various types of psychiatric problems.

# SHRIMATI INDIRA GANDHI COLLEGE

(Affiliated to Bharathidasan University)

Nationally Accredited at 'A' Grade (3<sup>rd</sup> Cycle) by NAAC | An ISO 9001 : 2015 Certified Institution

S.Aparna and A.Nivetha II MSW organized a programme on Violence against women on 13.09.2022 at kannangudi village. Ms. G.Tamilselvi founder of WE- TRUST was the Resource person. Student's learned to organize community awareness programme and gained the knowledge on programme organizing skills.

Participatory Learning: Group project on Environmental protection and preservation was conducted by a group of 3 students under the guidance of Dr.K.Kavitha Maheswari on 31.10.2022 to create awareness on the significance of environment and it's impact among UG Economics students

Group project on Health and Hygiene was conducted by a group of 2 students under the guidance of Dr.E.DEEPA and Mrs.P.SELVI for II BSc Physics Students on 06.03.2023

WORD PUZZLE: Word puzzle game is conducted for the II B.sc students to improve their literary knowledge on 06.03.23

## Seminar

A student is taking seminar on Impact of disaster on women and children and discussing its associated problems in the class on 23.01.2023

## TNSCST PROJECT:

Cash Award Received From Tamil Nadu State Council for Science and Technology II MSW student V.Jamuna presented a paper Study on Sperm Donor Insemination among Childless Women on 25 th November 2022 at Excem Engineering College-Autonomous Namakkal Dt, Tamilnadu.

## Group Discussion

Group Discussion is optimised when incorporated as an integral component of a a curriculum paying special attention. Group discussion on Ill effects of alcoholism 13.09.2022

## **Problem solving Methodologies: CAMP**

The department keenly organize camps to provide participatory learning among social work students through practical exposure and group participations. Students are camped in a particular rural community for a brief period and they are allowed to interact, organize

IMPACT: Camping help students to observe the life style of rural community, organize relevant programmes such as role play, Street play, puppetry, cultural events, organizing rally, kitchen

# SHRIMATI INDIRA GANDHI COLLEGE

gardening. Tree plantation etc., Students develop skills like public speaking, organizing, leadership skills etc.,

## Group project

Students are encouraged to act as resource person to various community settings is one of highlighted features of the department. Both first year and final year students often act as resource person, providing training to the self help groups, preparing teaching modules for primary school children, conducting yoga classes, jewelry training, stress management techniques for hospital staffs etc.,

K. Aishwarya of II MSW organized a programme on Anxiety and fear at Frontline hospital. On 28/04/2022. M. Keerthana of II MSW Organised a programme on Importance of education on 30/9/22 at kalaivani matriculation school. Ms. R. Yashini and Ms S. Asha underwent Internship training in a Leading Savitha Hospital in Chennai on 23.3.23.

Group project: S. Aparna and A. Nivetha of II MSW Organised an awareness programme on Drug and Alcohol addiction among general public at Solamadevi village on 23.02.2023.

Experiential Learning: Educational Tours: -

Educational Tour is a part of the Learning Process. We at Shrimati Indira Gandhi College, Trichy, the Department of Business Administration organized an Industrial Visit to Wayanad, Kerala on 27.03.2023 and 28.03.2023. 52 students accompanied by 2 faculty visited the bamboo craft village. Edakkal Caves, Banasura Sagar Dam, and Kuruvadweep were visited. The students enjoyed and also benefited as they got practical knowledge of small-scale industries.

Participative Learning:

Weekly Celebration: -

The student of Business Administration celebrated Friendship Week From 2 August to 6 August 2022. On 2/08/2022 The event celebrated was narrating "Friendship Stories". More than forty students participated in the event and narrated the stories of Friendship by quoting their own experience in between the story. This event was an excellent choice of sharing their experience of true value of Friendship in Crisis. By this event the students came to that "True Friends are never apart may be in distance but ever in Heart".

# SHRIMATI INDIRA GANDHI COLLEGE

(Affiliated to Bharathidasan University)

Nationally Accredited at 'A' Grade (3<sup>rd</sup> Cycle) by NAAC | An ISO 9001 : 2015 Certified Institution  
Tiruchirappalli - 620 002

The second event was conducted on 4/08/2022 as debate on the topic “Is friendship is strength or weak”. The participants of both the team expressed clearly their views in favour and against the topic. The moderator finally unsoldered the valid points and gave the judgement that true friendship is always good in any crisis at any point of time.

The third event conducted on 5/08/2022 was friendship poem writing by the students. Around 39 students participated and presented their poems with great zeal and enthusiasm.

The fourth event was “friendship fun games” conducted on 6/08/2022. the game was in such a way to task the compatibility and understanding of their friendship.
